Aug 2023 – Feb 2024

Pakistan

PROJECTS

Bank Management System (C++/OOP)

– Developed a C++ Bank Management System with a Windows Forms GUI for account operations and admin controls.

Mimo Learning App

– Conducted requirement analysis and engineering for a learning app focused on programming education.

Quiz Application (Java)

– Created a quiz application with structured software design patterns for enhanced maintainability.

Blood Bank (Django)

– Implemented user roles (donor, requester, admin) for efficient blood donation management using Django.

Evibe – Event Management System

– Developed an event booking and management system with a frontend in HTML/CSS/JavaScript and a backend in PHP.

Flutter Frontend Projects

– Developed GPA Calculator, iOS Calculator, Weather App, Chat App, E-Commerce App, To-Do App, and Music App using Flutter.

UI/UX Projects

– Designed Movie App, Grocery App, Food Delivery App, Nike Shoe Page, and landing pages for Hotel and Evibe using Figma.

Portfolio Website (React)

– Created a personal portfolio website using React showcasing my information, skills, projects, and experience. It includes a “Get in Touch” form allowing recruiters to send me emails directly.
